GOALS

Help others through new technologies to live better in the world of information

EDUCATION

Masaryk University, Faculty of Informatics, Brno

2009 – present Student of MA program in Service Science, Management and Engineering

2006 – 2009 Bc. (equivalent BA) in Applied Informatics

WORK EXPERIENCE

manager | Czech Bishops' Conference

2007 – present employee, 2002 – 2007 volunteer

As a volunteer, I programmed a web-magazine www.signalny.cz. In 2007, it became a social network for young Christians in the Czech Republic and I became responsible for the whole project. I currently manage 5 other employees because the network has become very popular in the meantime. There are tens of volunteers involved in the project in 5 areas: spiritual live, development, content publishing, marketing and economics.

programmer & SEO consultant | RobertNemec.com

2006 – 2007 employee, 2004 – 2006 extern

I worked on developing web CMS with the main aim of enabling the search engines-friendly features and helping our customers to optimize their sites to cooperate with search engines. I worked for T-Mobile, UK MBA, CzechInvest, ECM, Doktorka.cz etc. I achieved the growth of unique visitors at Doktorka.cz from 80,000 to 220,000 per month only by switching from the old CMS to the new CMS created by me.

other

I did a lot of voluntary work. Mainly for schools (e. g. teaching) and church organizations (e. g. weekly meetings for kids, webhosting for parishes, courses). Full list of my work experience is available at [my website](#).

SKILLS

- Languages: Czech (native speaker), English (intermediate), German (beginner), Slovak (passive)
- Programming: PHP (advanced), C (beginner), C++ (beginner), Java (intermediate), SQL (advanced), XML (advanced), HTML (advanced), CSS (intermediate), JavaScript (intermediate)
- Other: teamwork, project management, leadership, organization skills, analytical thinking, marketing skills, human computer interaction (user interface design, user experience design), search engine optimization, presentation skills

HOBBIES

new technologies (nowadays: mobile platform, web-apps, social networks), music (guitar and piano playing, listening), reading, traveling and sports (bicycle, cross-country skiing, hiking)

RECOMMENDATIONS

Mons. ThDr. RNDr. Ladislav Hučko CSc. | Bishop at Czech Bishops' Conference

Jan is one of those excellent people who don't only come up with innovative ideas but who can also execute them. I had had a great experience with him as a volunteer already before he became Czech Bishops' Conference employee. Despite the low salary and his study requirements, he never ceased to concentrate on helping others. Thanks to his hard work, signaly.cz has become the largest Christian online network in the Czech Republic. I am glad he helped us open new, modern channels of communication.

Mgr. Robert Němec | Owner of RobertNemec.com

Jan has brilliant brain with focus at programming. He completed his first CMS for us when he was still at the high school and it has worked at many of our websites since then.

Furthermore, his working moral is at a very high level.
